

Collaborative Integrated Design (2.5 HSW) – Elisabetta Trezzani

Friday, June 8, 9:15 a.m. – 11:45 a.m.

Collaborative Integrated Design

- Participants will be able to gain more experience relating to how a new building could revitalize and give life to a neighborhood, and involve the community in this process of transformation.
- They will be able to develop an understanding of how natural light and Art could work together.
- They will be able to interpret, compare and categorize how to evaluate critical areas and critical situations in a project due to climate transformation.
- They will be able to develop and recommend how multidisciplinary teams, working together, could arrive at a successful project.
